# NEW for 2018

## NEW Healing Zen Ritual

Mediation and yoga are highly recommended from doctors as a means to relieve stress and give your body a chance to heal while preventing disease, but fitting a meditation class into your schedule or trying to do it on your own can be hard and ... stressful!

The Qi Garden has designed a new Signature Treatment to make the healing benefits of meditation available to you, when you want them, in an easy, enjoyable 45 minute session where all you have to do is rest and relax.

We've created a delicately blended trio of therapies found only at our Qi Garden Salt Spa. Using the technique from the ancient Japanese Onsen sand bath, we have replaced sand with Himalayan pink salt to cocoon you in a dry salt bath while the calming effects of color and light soothe and calm your mind and body, even if your eyes are closed. While you are nestled in healing salt and light, we will add Infrasonic frequency therapy to uncover healing from deep within resulting in decreased inflammation, pain relief, better sleep, increased energy levels and accelerated recovery.

Our gorgeous Zen Salt Suite is available for individuals, couples or for private sessions, must be 12 years or older.

45 minute session ~ \$60 per person (European style)  
\$90 Individual private session  
\$100 for couples (2 people)

### Introductory Price

**Only \$45 per person or \$75 per couple**  
(offer valid through February 24, 2018)

## Dermaplaning

**For a smoother, flawless looking complexion instantly**

This advanced skin care technique helps to refinish top layers of skin through a method of controlled surgical scraping. It is a manual exfoliation much like a microdermabrasion treatment but with NO downtime or pain.

It can be performed on small areas such as the upper lip, or on the entire face and can be used alone or in conjunction with a chemical peel or facial. A sterile surgical disposable blade is used to remove top outer most layers of dead skin, along with fine vellus hair (peach fuzz). It triggers cell turnover and instantly brightens skin.

Dermaplaning helps increase absorption of topical products, immediately diminishes the appearance of fine lines and wrinkles, removes trapped dirt and debris caught in hair and helps with lightening hyper-pigmentation and acne scarring. It allows makeup to go on much smoother and gives skin a flawless look.

Can be done as often as every 2-4 weeks. Best results occur with a series of sessions.

**45 minute session - \$90**
